STATES THE CATHOLIC POSITION

This was the first annisince it was declared a legal holiday. One of the objects of the order being to spread the name and fame of the great discoverer, all the councils sense of justice will prompt them to throughout the country seek to invest the celebration of Landing day with peculiar charm and dignity. At night an elegant banquet was and several hundred Knights ast down to the tables at o'clock. Grand Knight Edward J. McDermott presided, and when the time for speech-making arrived delivered a glowing address full of patriotism and zeal for the cause of Columbianism. Thomas B. Hart, editor of the Catholic Telegraph of Cincinnati, responded to a toast on "The Press," and Camden R. Mc-Atee a'so delivered an address that was loudly applauded and much appreciated.

The guest of the evening was Rev. Henry S. Spalding, S. J., of Chicago, Father Spalding comes from a dstinguished Kentucky family who have given many sons and daughters to religious orders in the Catholic church, and many of them have in high ecclesiastical places. He de voted his remarks to the necessity of religious education being taught in connection with an education of the mind, and said in part:

I hold that the State should continue to support and regulate those schools where no religion is taught. and to provide such schools for those children whose parents object to religious education; that State should support those schools where religion is taught, and provide such schools for those children whose parents desire a religious education; that the State should exercise the same jurisdiction over both kinds of schools in regard to the qualification of teachers and the standard of studies. I am told that many organizations

which have philanthropy as their watchword restrict this exercise of charity to their own members. would not have you imitate such model. I would have your charity as unbounded as the love of Christ, as the solicitude of the church. While in your membership you must have certain rules and requirements. would not have you glory in the honor of exclusiveness. I would not have your charity confined to your limited circle; it should be as broad and universal as (that of Christ, who pitied the poor and reglected, who ministered to the suffering, who in humility washed the feet of his disciples. I would call upon you as individuals and as members of your council to take an active part in every religious and civic movement for the benefit of the church and country.

I am told there are societies which protect their members, even when guilty of atrocious crimes: that it is a principle with them to shelter pers in our civil courts. would have you drive the unworthy member from your midst and never permit him to use your organization for his selfish schemes or to safeguard him against justice.

"ELECTRIFIED."

Rev. Fathher Brady Presented Handsome Auto.

The Rev. A. J. Brady, the widely known and beloved pastor of St. Cecilia's church, received an "electric" shock on Wednesday, but of a nature that will be the source of more than ordinary pleasure to him-

self and his Louisville admirers The first of the week Father Brady received a bill of lading, and when the delivery was made it was found to be for a \$2,600 electric automobile barouche, the gift of friends the good Louisville priest had made in Michigan. The machine is one of the finest in the city, and words would hardly express the feelings of Father Brady when the auto arrived and the full purport of the 'bill' was made known to him. He has made several trips with his brother priests and runs the machine with the ease of one who has had years of experience. ADD.

Friends of Ireland Arrange For a Great Welcome Friday Night.

Arrangements Will Be Completed at Meeting Tomorrow Evening.

The announcement that Hon. Joeph Devlin, one of the leaders in coming to Louisville and would be tendered a public reception by the friends of Ireland next Friday night at Masonic Temple, was hailed with zens, and a gathering is predicted such as will surpass any witnessed here since the Land League days.

Four of the duly elected members are in this country. Three of these (O'Connor is the representative of an English constituency) are the Miss Prudence Walsh, Correspondsuccessful issue their valiant and Zanone. promising struggle for home rale These men are Ireland's representatives to America in the strictest sense of the word. They are not only the Parliamentary representa tives of the Irish people, but they belong to a party which constitute nine-tenths of the Irish representation in Parliament. They are therefore both empowered and qualified to speak on the Irish situation as few other men are.

During the time that the envoys have been in America they have been accorded the highest esteem by their fellow-countrymen. The Irish envoys are in America not for personal pleasure or advancement. They are here to acquaint their countrymen with conditions as they actually exist in Ireland today. They come with the seal of approval of their countrymen, and that alone should be a sufficient passport to the confidence of their countrymen in America. They are men whose loyalty has been tested well, in the crucible of political strife. They are still in the crucible and still intact. They are deserving of a hearing in America, and the support of all Irish Ameri-

In a little more than a month Parliament will open, and the men who are with us now will have to get back again to the grim grind of duty. It is to be hoped that their efforts here will result so favorably as to stimulate them in their struggle for Ireland's rights, and that when they return to America again t may be their privilege to relate he story of their triumph.

As soon as it became known that his Irish Envoy could visit Louisville a number of conferences of prominent citizens were held and preparations begun for his reception, which will be completed at a genral meeting to be held tomorrow night at 7 o'clock at the Knights of Columbus club house, to which all interested are invited. Another case in point was that of R. W. The Republicans will not only poll a light vote, but will hardly be able to obtain any of the Independent vote, many of whom are outspoken in saying that Sherley for Congress and Miller for Appellate Judge the best selections that this dictrict could make, and that it would be folly to replace a man like Sherley in Congress with Judge McGee, who was even a failure in the Police Court, or to choose a man of many lika Bingham is sterling Judge Miller. Not only the independent voters, but the voters in general, have learned to take the statements of the Post and Herald with a grain of salt. One of their favorite slogans is that the police were out of politics under Grinstead. while the sworn affidavits of policemen are shown telling how they distributed campaign literature for the Republicans in the last election, and which were published exclusively in the Kentucky Irish American at that time. At the same time it was published how the police and firemen were compelled to pay assessments in the Republican headquarters, second floor of the Walker building, Fifth and Market, and which these papers did not deny then and can not deny now. As Abraham Lincoln said, "You can fool all of the people some of the time," etc., but the voters won't be fooled anymore by the Post and Herald, their efforts to defeat Sherley and Miller being wasted, as a great Democratic victory is predicted for this district.
